ABSTRACT

Red Book uplifted the logical approach in Astrology. During the course of study, the inferences drawn from scientific evaluation of several horoscopes, motivated to reformulate some basic interesting facts and propose the hypothesis that could streamline and help in better understanding, correlating and systematic precise analysis of the horoscope. Firstly, it was observed that the lordship for the Zodiac sign needs to be reframed. Secondly, the effect of one planet on other and its effect on neighboring houses in horoscope needs amendment. Thirdly, it was established that Navmansh chart (D9) in addition to Lagan chart determines and governs the complete life span of an individual. The life of the native depends on lagan chart till thirty fourth year while Navmansh chart rules the life from thirty fifth year and thereafter.

Keywords: Horoscope, Zodiac sign, Lagan, Navmansh

1. INTRODUCTION

The Universe, the planets and the existence of Life on Earth symbolizes the infinite knowledge. The understanding for the same evolves as our wisdom grows during the course of our evolution. Astrology, the essence of Occult Science is no different in this aspect.

Astrology is a chemistry of celestial bodies and planetary interactions that casts its effect on life and terrestrial events. It is a logical intervention that channelizes the mind in quest for perfection in predictions. Scientific aptitude, rational approach, intellect and analytical skills are some of the pre-requisites that an astrologer must possess.

Astrology serves as light that guides the path on various aspect of life. The extent to which a person utilizes the information depends on his comprehension [1-4].

Each planet has its specific chemistry, properties and nature. Rahu and Ketu are distinct from Saturn. Change in time with advancement of Science and Technology has led Rahu, Saturn, Venus and Ketu to dominated the civilization. Interference by mythological perceptions and following the old rules of horoscope analysis refrain the accuracy in predictions [5].

Astrology has been claimed to be a pseudoscience for several reason and is

rendered unacceptable. Hence, there is need of scientific research to bring about the accuracy and precision in astrological analysis. The hypothesis presenting the research results in the paper are an outcome of sincere efforts in the similar direction [5].

2.METHOD AND MATERIAL

The birth details of several natives were collected and correlated to their information, facial appearance, features, skin color to match the ascendant zodiac sign (Lagan and Navmansh) depending on their age to confirm the birth details. Several parameters of native’s life, life incident, family history, education, interest, profession and health status were also used to confirm and match the planetary placement to authenticate the birth details, prior to analysis. The results thus obtained were studied and summarized [4].

3. DISCUSSIONS

The preconceived notion of “Astrology the Pseudoscience” prevailing in the society needs earnest systematic efforts and innovative ideas of scientists. The constructive and collaborative scientific research can enhance the astrological significance [1-5].

3.1 Ruling planets for the Zodiac sign

There are twelve houses in the horoscope as shown in Figure 1. Each house is designated by a zodiac sign. Zodiac sign plays very important role in horoscope. Each sign has immense significance. It was observed that the ruling planet to different Zodiac sign needs to be reframed for better analysis. The sequence that best supports the interpretation has been mentioned below in the table 1.

There are many zodiac signs ruled by single planet for example Aries has Sun, Cancer by Moon, Leo by Jupiter, Libra by Venus, Scorpio and Capricorn by Mars, Sagittarius by Saturn while Pisces by Ketu. Some zodiac signs have two rulers but primary owner (major ruler) should be preferentially considered while analysis example Taurus by Jupiter, Gemini by Mercury and Virgo by Rahu. The secondary owner renders the benefic results in general. Ketu, its placement, zodiac sign and status whether under malefic or benefic influence must be evaluated while analysis of Pisces. Similarly, to study Sagittarius, Saturn its placement in the horoscope, zodiac sign and status after planetary influence are some of the essential factors that must be checked [4-8].

Figure 1. A typical horoscope depicting the ascendant and the twelve houses

HOUSES IN THE HOROSCOPE	ZODIAC SIGN	PRIMARY OWNER	SECONDARY OWNER
1	ARIES	SUN	-
2	TAURUS	JUPITER	VENUS
3	GEMINI	MERCURY	MARS
4	CANCER	MOON	-
5	LEO	JUPITER	-
6	VIRGO	RAHU	MERCURY
7	LIBRA	VENUS	-
8	SCORPIO	MARS	-
9	SAGITTARIUS	SATURN	-
10	CAPRICORN	MARS	-
11	AQURIOUS	VENUS	-
12	PISCES	KETU	-

Table 1. Distribution of the ruling planets for different Zodiac signs

3.2. Planetary effect on various houses

The understanding to Astrology mainly develops after systematic assessment of planetary chemistry and interactions. Planets cast their effect on adjacent planets and houses depending on their placement in horoscope. The neighboring planetary effect has been summarized in the table no 2. Each planet has its specific effect as shown in table 2 in reference to figure 1. Sun, Moon, Rahu and Ketu cast their effects clockwise unlike other. The inferences and interpretations derived in lack of proper information generally fail.

Our life is determined by Lagan chart and Navmansh chart. If any of the chart has

Saturn and Moon combination then that result will be observed based on the position of this combination in the horoscope. In case, Mercury is placed in a house preceding the former combination then the effect of Mercury will be partially added in addition to the result of Moon and Saturn. Similarly, if Mars and Jupiter are casting their effect on this interaction from any of the surrounding positions then the intensity of severity will magnify multiple times.

It is unwise to predict without prior evaluation of all planets in the complete horoscope. It is not just one or two but all the rest planets and their placement that together leads to a specific result [4-10].

S.No	PLANET PLACED IN ASCENDANT (1 st HOUSE)	PLANETARY EFFECTS OBSERVED ON THE FOLLOWING HOUSES
1.	SUN	1,12,7
2.	MOON	1,12,7
3.	JUPITER	1,4,5,7,9
4.	RAHU	1,12, 11, 10, 9, 7
5.	MERCURY	1,2,3,7
6.	VENUS	1,2,3,7
7.	KETU	1,12, 11, 10, 9, 7
8.	SATURN	1,2,3,4,5,7, 9,10
9.	MARS	1,4,5,7,8

Table 2. Planetary effect on various houses

3.3 The Navmansh chart and its significance

The Lagan chart and Navmansh chart gets finalized for a newly born child or the native at the time of his birth, based on his birth details i.e. birth time (am/pm), date, month, year and location. However, there are a number of theories regarding Navmansh and its importance. In our study, we have found that Lagan and Navmansh chart completely determine and govern the life and its major events. Lagan chart of the native lays the foundation of the life and works till the age of thirty four whereas Navmansh chart represents the second half of the life that casts its effect from thirty fifth year and thereafter.

The minor events and changes in the life of a native take place in accordance to yearly

chart or the planetary motion, that changes on each birthday. The result obtained in the yearly chart are strictly according to the probability defined by Lagan and Navmansh chart.

For a child born with the Lagan and Navmansh as shown in figure 2, within first year of his birth, he will get the result of the 9th house (Aries) with special influence of Sun from 3rd house (Libra). In his second year of age he will get the result of Rahu from 10th house (Taurus) and Mars & Ketu from 4th house (Scorpio). Likewise, he will get the effects, till the age of thirty four influenced by the 6th house (Capricorn). At the age of thirty fifth he will get the effect of Venus & Rahu from 7th house (Aries) and Ketu from 1st house (Libra) in Navmansh chart.

Figure 2. An example to elucidate the importance of Navmansh Chart

Generally, at the age of thirty four and thirty five a man is under the influence of mercury. As a result of this transition, a partial drift in appearance (face structure, features and color from a combination of Leo and Aquarius in Lagan Chart till thirty fourth year to a combination of Libra and Aries from thirty fifth year) will appear. Similarly, the partial change in ideology,

mannerism,, attitude, like, dislike, priorities and even mental capability change. The changes can be constructive or destructive, depending on the planetary positions in navmansh chart.

On studying different horoscope by using the information provided above we can answer how the transition affects the life of a person from ignoble to noble,

defamed to fame, poor to rich and average to outstanding. If horoscope has to render benefic or malefic results the concerned person automatically follows the same route or under some influence to reach his destiny [1-10].

4. CONCLUSIONS

Astrology is a systematic scientific study and a masterpiece. It can guide on every aspect of life and has immense potential. It helps the person to understand and improve himself by self realization, avoid malefic influences in hard times, refrain negativity & blaming etc. The hypothesis presented as a result of research analysis through the paper decodes some important aspect of horoscope analysis. The ruler of the zodiac sign, planetary interactions have been reframed. The Lagan kundli lays the foundation of the life and is active till thirty four year of age thereafter navmansh kundli activates and governs the life. There are still many aspects in astrology that could be improved for precise analysis and predictions.

Acknowledgements

I am grateful to astrologers like G. D. Vashisth, Professor Gurdeep Arora, Sakshi Thakur, Mata Ji, Anil vats, Dr H. S, Rawat, Faculty ICAS, Chandigarh for astrological insight. I am indebted to my mother Mrs Madhvi Chauhan and father Late Sh. Kripal Singh Chauhan. I am thankful to my wife Priyanka Gahlot and son Praver Chauhan for unconditional love and support throughout. I express my gratitude to sisters Sushma Chauhan, Sapna Chauhan & Late Rekha Jarial and cousins Divya Jarial, Nistha Chauhan, Lisha Chauhan and Anushka Singh. Above all, I bow in reverence to the Almighty for providing me the astrological vision and directing me to utilize it in constructive research.
